

Name: _____ Date: _____

Drug Allergies: _____

Medications currently taking: _____

For Office Use Only

You are being given _____ mg of oral Valium (Diazepam) in order to help you complete your exam. Because this drug is a sedative that impairs judgment and reaction *Seattle Radiologists* will not give you Valium unless you have arranged for another adult to drive you home after your visit here.

I understand that I am not competent to drive an automobile or operate any machinery within eight (8) hours of taking Valium. I have arranged for a licensed adult driver to drive me home from *Seattle Radiologists*.

I have been informed and understand the above.
